

LINKEDIN AND EMAIL OUTREACH

Set up the messaging once. NextLink follows up until someone replies.

NextLink runs connection requests and follow-ups on LinkedIn and email for your team or your clients, and puts every reply in one inbox so your people spend their time on real conversations.

LinkedIn + email

Voicemail drops and calls

One inbox for every profile

Live in about 15 minutes

What you get

Outreach that keeps going

Connection notes and follow-ups with smart delays and conditions. Follow-ups stop the moment someone replies.

One inbox for everything

Replies from every LinkedIn profile and inbox land in one place, with labels and saved replies, so nothing slips.

Built on Sales Navigator

Bring a Sales Navigator search or a list. NextLink pulls the prospects in and works through them every day.

Reporting you can share

Invites, acceptance, replies and meetings per campaign. Easy to show a client or your team.

How it works

1

Connect

Link the LinkedIn profiles and email inboxes you'll send from.

2

Pick who to reach

Use a Sales Navigator search or upload a list.

3

Write it once

Connection note and follow-ups in your own voice, with delays and conditions.

4

Work the replies

Every response lands in one inbox. Your team takes it from there.

Who it's for

Agencies

Add outbound to every client account under the client's own brand, and keep your own pipeline full.

Lead gen and appointment setting

Run more profiles with the same team and manage every reply from one place.

Sales leaders and consultants

Steady new conversations for yourself or your clients without hiring SDRs.

Automated follow-up. Still personal.

The automation handles the timing and the follow-up. The words and the conversations stay yours.

You write every message

In your own voice, not a canned template.

Personal details built in

Name, company and title filled in for each prospect.

A real person answers

Follow-ups stop the moment they reply.

Step in anytime

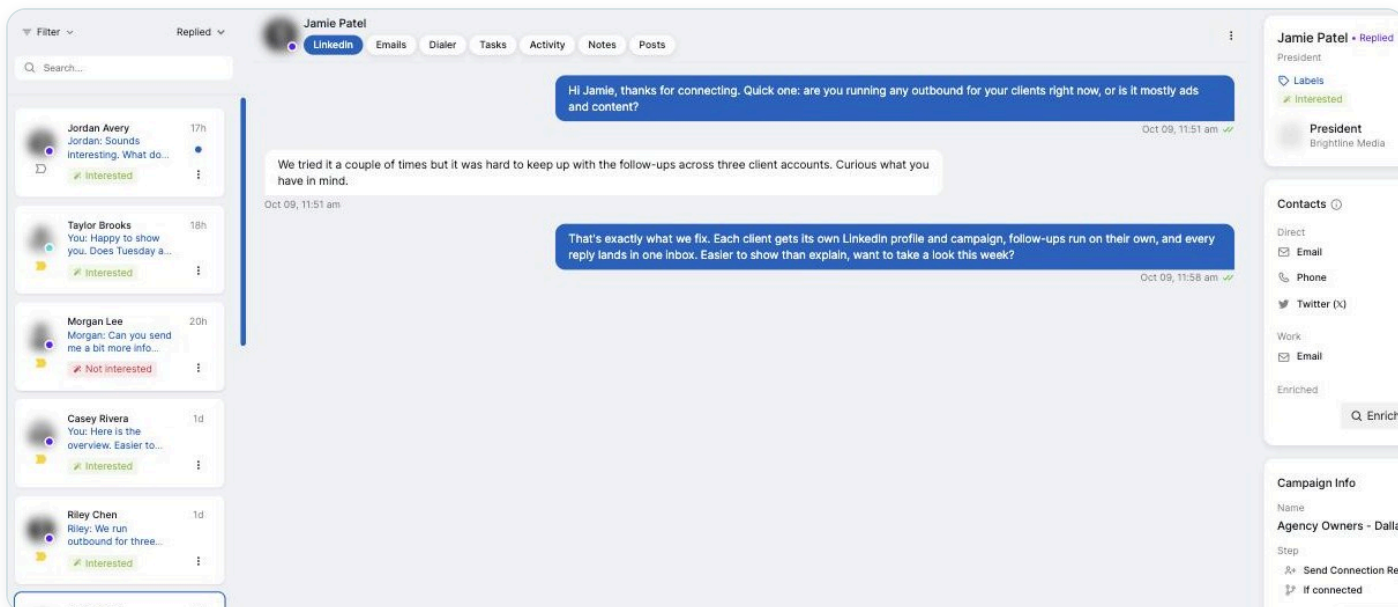

Reply by hand or change the messaging whenever you want.

See it on your own use case

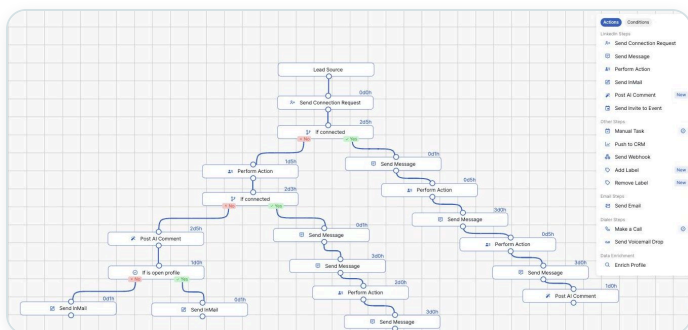

A 30-minute live demo: who to target, the messaging, and the follow-up.

What your team works in every day

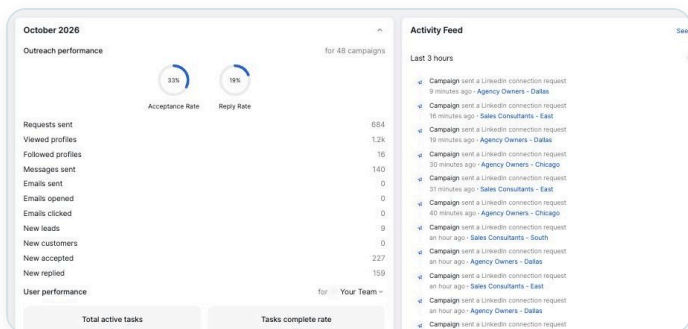

One inbox for every profile. Replies from every LinkedIn seat in one place, with labels, saved replies and the prospect's details beside the conversation.

Visual sequence builder. Connection requests, messages, InMail, email, calls and voicemail drops, with "if connected" branches and delays.

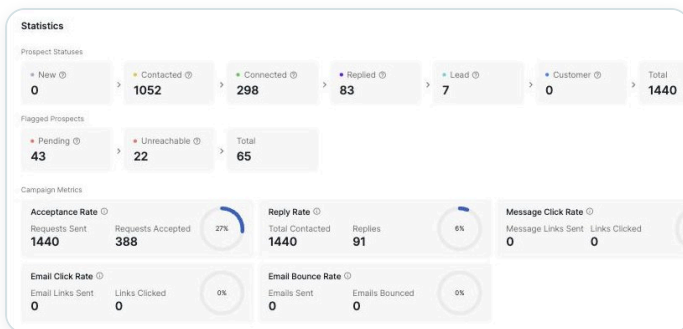

Bring in prospects your way. Sales Navigator searches and lists, post and event engagers, groups, CSV uploads or the API.

Dashboard. Requests sent, acceptance and reply rates, and a live activity feed across every campaign.

Screens from a live NextLink account. Names and messages replaced with examples.

Results per campaign. Contacted, connected, replied and leads, plus acceptance and reply rates.
